

JULIO LIMA COSTA VALLADARES

Senior Front-End Developer | React.js, TypeScript & Modern Web Applications

Brazil | +55 22 99253-1720 | juliolima1225@gmail.com | linkedin.com/in/juliolimacostavalladares

PROFESSIONAL SUMMARY

Senior Front-End Developer with 5+ years of experience building scalable, high-performance interfaces using **React**, **TypeScript**, and modern frameworks like **Next.js**. Proven track record integrating **REST APIs**, optimizing **Core Web Vitals**, and delivering user-centric solutions across e-commerce, marketing automation, and EdTech platforms. Expertise in modern build tools including **Vite**, **Webpack**, and **Next.js**, with strong focus on code quality, testing, and frontend architecture. Successfully collaborated with cross-functional teams including backend, product, and design to deliver enterprise-grade solutions for clients like Magazine Luiza, Nike, and Natura. Demonstrated ability to work in international environments with advanced English proficiency and hands-on experience with AI-powered development tools.

PROFESSIONAL EXPERIENCE

Senior Front-End Developer | Greenn

May 2025 – March 2026 (11 months) | Remote, Brazil

- **Real-time Architecture & Scalability:** Implemented real-time stack using **Socket.io**, **SSE**, and streaming protocols to support 12,000 concurrent users with zero latency bottlenecks, ensuring seamless interactions across the platform.
- **React & TypeScript Development:** Built scalable frontend features using **React** and **TypeScript**, following best practices for component architecture, state management, and code reusability.
- **Performance Optimization:** Optimized video generation pipeline and media processing, achieving 47% reduction in loading time through efficient asset management and API integration strategies.
- **User Engagement System:** Designed and developed Netflix-style learning experience with dynamic recommendation algorithms, resulting in 42% increase in student retention and R\$11,500+ revenue in first 4 weeks.
- **REST API Integration:** Integrated multiple **REST APIs** for AI-powered content generation, voice cloning, and video processing, ensuring robust error handling and data flow management.

Senior Front-End Developer | Localweb

February 2023 – May 2025 (2 years 4 months) | Brazil

- **React & TypeScript Development:** Developed and maintained enterprise-level frontend features using **React** and **TypeScript** for e-commerce and marketing automation platforms serving major brands including Nike, Natura, Magazine Luiza, and Telhanorte.
- **REST API Integration:** Orchestrated **Meta API Embedded Signup** integration for WhatsApp Business, increasing account approval from 72% to 98% and automating activation of 500+ accounts monthly for enterprise clients.
- **Modern Build Tools:** Utilized **Webpack** and modern build configurations to ensure optimal bundle size, code splitting, and performance across production environments.

- **Frontend Architecture:** Implemented headless architecture with 99.7% uptime for mission-critical systems, ensuring full compliance with Meta policies and platform resilience.
- **Conversion Optimization:** Built behavior-based retention systems and trigger mechanisms processing 12,000 daily events, achieving 27% increase in abandoned cart recovery.
- **Email Builder Development:** Created responsive email template editor using **MJML framework**, resulting in 35% increase in open rates and 22% improvement in checkout conversion.

Mid-Level Front-End Developer | Hivelabs

January 2022 – February 2023 (1 year 2 months) | Remote, Brazil

- **React Application Development:** Led frontend development and technical integration of "Smart Campaigns" marketing automation app for Tray platform using **React** and modern JavaScript frameworks.
- **REST API Integration:** Designed and implemented **REST API** integrations with WhatsApp Business API and e-commerce platforms, ensuring high message delivery rates and technical compliance.
- **User Interface Design:** Built intuitive configuration interfaces for automated cart recovery workflows, enabling merchants to set up intelligent conversion funnels with minimal technical knowledge.
- **Collaboration with Cross-functional Teams:** Worked closely with backend engineers, product managers, and designers to ensure seamless user experience and technical feasibility of marketing automation features.
- **Performance & Testing:** Contributed to one of the highest-adoption apps in Tray App Store, processing thousands of daily conversion events with rigorous testing and quality assurance practices.

Junior Front-End Developer | Wx3

May 2020 – January 2022 (1 year 9 months) | New Friburg, RJ, Brazil

- **Next.js Migration Leadership:** Led strategic migration of legacy e-commerce platforms from jQuery to modern **Next.js** architecture with **Server-Side Rendering (SSR)** for fashion and luxury retail clients.
- **React & TypeScript Implementation:** Rebuilt frontend applications using **React** and **TypeScript**, implementing component-based architecture and modern development practices.
- **REST API Integration:** Integrated e-commerce **REST APIs** for product catalog, checkout flows, and customer management, ensuring data consistency and optimal performance.
- **Performance Excellence:** Achieved 82% improvement in overall performance and "green" status across all Google **Core Web Vitals** metrics (LCP, FID, CLS).
- **Build Tool Optimization:** Configured **Webpack** and modern build pipelines to support 4x traffic increases with zero runtime errors over 6-month period.
- **SEO & Scalability:** Improved organic SEO by 43% through technical optimizations and proper SSR implementation using **Next.js**.

TECHNICAL SKILLS

- **Frontend Frameworks:** React.js, Next.js, Vue.js, TypeScript, JavaScript (ES6+)
- **Build Tools & Development:** Vite, Webpack, npm, yarn, Git, CI/CD pipelines
- **API Integration:** REST APIs, WebSocket, Socket.io, Server-Sent Events (SSE)

- **Styling & UI:** TailwindCSS, Material UI, CSS3, responsive design, design systems
 - **Testing & Quality:** Frontend testing frameworks, code review, best practices
 - **Performance Optimization:** Core Web Vitals, SSR, code splitting, lazy loading
 - **Development Tools:** GitHub Copilot, Cursor AI, modern IDE tools
 - **Architecture:** Component-based architecture, state management, headless systems
 - **Collaboration:** Cross-functional teamwork, Agile methodologies, international environments
 - **Languages:** Portuguese (native), English (C1 proficiency)
-

EDUCATION

- **Information Technology Course** | Firjan SENAI (August 2019 – August 2020)
- **Information Technology Course** | Firjan SENAI (2019)
