

JULIO LIMA COSTA VALLADARES

Senior Frontend Engineer | React.js, Next.js & AI-Native Development

Brazil | +55 22 99253-1720 | juliolima1225@gmail.com | linkedin.com/in/juliolimacostavalladares

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 5+ years building production-grade applications for eCommerce, SaaS, and EdTech platforms. Proven track record delivering high-performing, scalable React and Next.js solutions for enterprise clients including Magazine Luiza, Nike, Natura, and Telhanorte. Expert in translating Figma designs into pixel-perfect, accessible interfaces and modern component libraries with TypeScript. Deep experience migrating legacy platforms to modern architectures, achieving 82% performance improvements and green Core Web Vitals scores. Skilled at integrating REST and GraphQL APIs, implementing real-time features with Socket.io and SSE, and managing complex state across distributed systems. Strong agency background managing multiple client projects simultaneously while maintaining rigorous code quality standards. Fluent in AI coding tools as productivity accelerators while keeping human engineering judgment at the center. Excellent written and spoken English with proven ability to work independently in remote, asynchronous environments with US-based teams.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | Greenn (Bluee.ai)

May 2025 – March 2026 (11 months) | Remote, Brazil

- **AI-Powered EdTech Platform Leadership:** Led frontend development for the world's first autonomous AI system generating complete video courses in under 1 hour, producing 320+ courses in 4 weeks with 8.9/10 NPS score.
- **Real-Time Architecture at Scale:** Designed and implemented real-time streaming architecture using Socket.io, Server-Sent Events, and streaming protocols supporting 12,000 concurrent users with zero latency bottlenecks.
- **High-Fidelity Voice Cloning Interface:** Built frontend interface for neural voice cloning feature achieving 97% accuracy from 10-second audio samples, handling tone and prosody replication workflows.
- **Video Performance Optimization:** Optimized video generation pipeline with avatar rendering and auto-editing systems, reducing media loading and processing time by 47%.
- **Netflix-Style Learning Experience:** Architected and developed Netflix-inspired LMS with dynamic recommendation algorithms, increasing student retention by 42% and generating \$2,000+ revenue in first 4 weeks.

Senior Frontend Developer | Localweb (LWSA)

February 2023 – May 2025 (2 years 4 months) | Remote, Brazil

- **Meta WhatsApp Business API Integration:** Orchestrated frontend implementation of Meta's Embedded Signup flow for WhatsApp Business, increasing account approval rates from 72% to 98% and automating 500+ monthly enterprise account activations.

- **Conversion Optimization Systems:** Built behavior-based retention popups and coupon trigger systems, generating 27% increase in abandoned cart recovery with 12,000 daily automated dispatches.
- **Headless Architecture & Enterprise Reliability:** Maintained 99.7% uptime on mission-critical systems serving Nike, Natura, Magazine Luiza, Telhanorte, and DPaschoal with full Meta policy compliance.
- **MJML Email Template Editor:** Developed responsive HTML email builder using MJML framework, increasing open rates by 35% and checkout conversion by 22% through optimized mobile-first design.
- **Component Library Development:** Created reusable React component library with TypeScript for eCommerce marketing automation tools, accelerating feature delivery across multiple client implementations.

Mid-Level Frontend Developer | Hivelabs

January 2022 – February 2023 (1 year 2 months) | Remote, Brazil

- **Tray Smart Campaigns App Development:** Led frontend development and technical integration for WhatsApp marketing automation app on Tray platform, democratizing Meta's Official API for SMB eCommerce clients.
- **Abandoned Cart Recovery Automation:** Implemented user interface and automated triggers for cart recovery workflows, enabling merchants to configure intelligent conversion funnels with simplified UX, directly increasing customer ROI.
- **WhatsApp Messaging Integration:** Designed streamlined user experience for WhatsApp Business configuration, ensuring technical compliance and high delivery rates for transactional and marketing messages.
- **High-Adoption Marketplace Success:** Contributed to app becoming top-performing solution in Tray App Store, processing thousands of daily conversion events and reducing technical friction for small retailers.

Junior Frontend Developer | Wx3

May 2020 – January 2022 (1 year 9 months) | New Fribourg, RJ, Brazil

- **Legacy Platform Migration to Next.js:** Led migration of legacy jQuery-based eCommerce platforms to modern Next.js with Server-Side Rendering architecture for fashion and luxury retail clients.
- **Core Web Vitals Excellence:** Achieved 82% overall performance improvement, reaching green status across all Google Core Web Vitals metrics (LCP, FID, CLS) for production storefronts.
- **SEO & Scalability Improvements:** Improved organic SEO performance by 43% and maintained zero runtime errors for 6 consecutive months while supporting 4x traffic spikes over previous infrastructure capacity.
- **Production-Grade React Development:** Built responsive, accessible eCommerce interfaces with modern React patterns, establishing component architecture standards for the development team.

TECHNICAL SKILLS

- **Frontend Frameworks & Libraries:** React.js, Next.js (SSR/SSG), Vue.js, TypeScript, JavaScript (ES6+)

- **Styling & UI:** TailWindCSS, CSS3, Sass/SCSS, Responsive Design, Figma-to-Code Translation
 - **State Management & Data:** Redux, React Query, GraphQL, REST APIs, WebSocket, Socket.io, Server-Sent Events
 - **Architecture & Performance:** Component Libraries, Design Systems, Headless CMS, Core Web Vitals Optimization, Code Splitting
 - **Testing & Quality:** Jest, Vitest, Testing Library, TypeScript, ESLint, Code Review Best Practices
 - **eCommerce Platforms:** Shopify, Tray, Bagy, Headless Commerce Architecture
 - **API Integration:** Meta WhatsApp Business API, Third-Party SaaS Integrations, Payment Gateways
 - **Development Tools:** Git, GitHub, CI/CD Pipelines, AI Coding Tools (Cursor AI, Gemini CLI)
 - **Collaboration & Documentation:** Technical Documentation, Agile/Sprint Methodologies, Remote Team Communication
 - **AI & Emerging Tech:** AI Agent Integration, Real-Time Streaming Protocols, Voice Synthesis Interfaces
-

EDUCATION

- **Information Technology Course** | Firjan SENAI (August 2019 – August 2020)
