

JULIO LIMA COSTA VALLADARES

Senior Frontend Engineer | Shopify, React, Headless Commerce & eCommerce

Brazil | +55 22 99253-1720 | juliolima1225@gmail.com | linkedin.com/in/juliolimacostavalladares

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 5+ years building production-grade eCommerce platforms and 4+ years of hands-on Shopify expertise across Liquid themes, Hydrogen, Checkout Extensions, and headless architectures. Proven track record leading Shopify migrations and technical implementations for enterprise clients including Magazine Luiza, Telhanorte, and Nike. Deep experience in React, TypeScript, Next.js, and headless commerce frameworks, delivering high-performance storefronts with measurable conversion impact. Strong background in agency environments managing multiple client projects simultaneously, with expertise in translating Figma designs into scalable, accessible, production-ready components. Technical leader who defines best practices, conducts rigorous code reviews, and integrates AI-assisted development tools to accelerate workflows while maintaining engineering excellence. Specialized in optimizing Core Web Vitals, implementing complex state management for cart and inventory systems, and architecting resilient frontend solutions that directly drive client revenue growth.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | Greenn (Bluee.ai)

May 2025 – March 2026 (11 months) | Remote, Brazil

- **Real-time Architecture & Scalability:** Architected real-time streaming infrastructure using Socket.io and Server-Sent Events to support 12,000 concurrent users with zero latency bottlenecks, ensuring fluid interactions across the platform.
- **Video Optimization & Performance:** Led frontend optimization of video generation pipeline with AI-powered avatars and auto-editing systems, achieving 47% reduction in media loading and processing time through advanced caching strategies and lazy loading implementations.
- **React-based Learning Platform:** Designed and developed a Netflix-style learning experience using React and TypeScript, implementing dynamic recommendation algorithms that increased student retention by 42% and generated R\$11,500+ revenue in the first 4 weeks.
- **Component Architecture:** Built reusable, scalable component library following Atomic Design principles, accelerating feature development cycles and maintaining consistent UI/UX across 320+ AI-generated courses.
- **State Management & API Integration:** Managed complex frontend state for user progress tracking, course catalogs, and real-time notifications, integrating RESTful and GraphQL APIs with optimized data fetching patterns.

Senior Frontend Developer | Locaweb (Tray/Bagy)

February 2023 – May 2025 (2 years 4 months) | Remote, Brazil

- **Shopify-Adjacent Platform Development:** Developed mission-critical eCommerce frontend solutions for Tray and Bagy platforms serving enterprise clients including Nike, Natura, Magazine Luiza, Telhanorte, and DPaschoal, ensuring 99.7% uptime.

- **WhatsApp Business API Integration:** Orchestrated Meta Embedded Signup integration using React and TypeScript, increasing account approval rates from 72% to 98% and automating activation of 500+ monthly accounts for enterprise merchants.
- **Conversion-Focused Features:** Implemented behavioral pop-ups and cart abandonment recovery systems processing 12,000 daily triggers, resulting in 27% improvement in cart recovery conversion rates through optimized user flows.
- **Email Template Builder (MJML):** Built responsive HTML email editor using MJML framework and React, achieving 35% increase in open rates and 22% boost in checkout conversion through mobile-optimized designs.
- **Headless Commerce Architecture:** Maintained resilient headless frontend systems with full Meta compliance, managing complex checkout flows, inventory synchronization, and payment gateway integrations.
- **Code Quality & Reviews:** Conducted systematic code reviews, enforced TypeScript standards, and established testing practices that reduced production bugs by implementing Jest and React Testing Library.

Mid-Level Frontend Developer | Hivelabs

January 2022 – February 2023 (1 year 2 months) | Remote, Brazil

- **Tray Platform App Development:** Led frontend development and technical integration of intelligent marketing automation app for Tray eCommerce platform, democratizing WhatsApp Official API access for SMB merchants.
- **Cart Recovery Automation Interface:** Designed and implemented user interface for automated cart abandonment workflows using React, enabling merchants to configure conversion funnels with minimal clicks and directly improving client ROI.
- **API Integration & State Management:** Architected frontend integration layer for WhatsApp messaging system, ensuring high delivery rates for transactional and marketing messages through optimized API calls and error handling.
- **High-Adoption Results:** Contributed to app becoming top-performing solution in Tray App Store, processing thousands of daily conversion events and reducing technical friction for small retailers.
- **Component Development:** Built reusable UI components and form validation systems following accessibility best practices, ensuring responsive design across devices.

Junior Frontend Developer | Wx3

May 2020 – January 2022 (1 year 9 months) | Nova Friburgo, RJ, Brazil

- **Legacy Migration Leadership:** Led strategic migration of luxury fashion eCommerce platforms from legacy jQuery architecture to modern Next.js with Server-Side Rendering, dramatically improving performance and maintainability.
- **Core Web Vitals Excellence:** Achieved 82% overall performance improvement and green status across all Google Core Web Vitals metrics (LCP, FID, CLS), directly impacting SEO rankings and user experience quality.
- **SEO & Scalability Impact:** Improved organic SEO traffic by 43% through technical optimization and maintained zero runtime errors for 6 consecutive months while supporting 4x traffic spikes versus legacy infrastructure.
- **React & Next.js Implementation:** Built production Shopify storefronts using React, Next.js, and modern frontend frameworks, implementing responsive designs from Figma specifications with

pixel-perfect accuracy.

- **Performance Optimization:** Applied advanced optimization techniques including code splitting, image optimization, lazy loading, and CDN integration to ensure fast, scalable storefront experiences.
-

TECHNICAL SKILLS

- **Frontend Frameworks:** React, Next.js, TypeScript, Vue.js, React Hooks, Context API, Redux
 - **Shopify Technologies:** Liquid templating, Shopify Hydrogen, Shopify CLI, Checkout Extensions, Theme Development, Shopify Apps, Storefront API, Admin API
 - **eCommerce & Headless:** Headless commerce architecture, Tray platform, Cart/checkout flows, Payment integrations, Inventory management
 - **Styling & UI:** TailwindCSS, CSS3, SASS, Responsive Design, Mobile-first approach, Component libraries
 - **API Integration:** RESTful APIs, GraphQL, WebSocket, Server-Sent Events, API authentication, State management
 - **Development Tools:** Git, GitHub, CI/CD pipelines, Jest, React Testing Library, Figma to code, Browser DevTools
 - **Performance & Quality:** Core Web Vitals optimization, Accessibility (WCAG), SEO best practices, Code reviews, TypeScript strict mode
 - **AI-Assisted Development:** Cursor AI, Gemini CLI, Google Cloud AI integration, Modern AI tooling workflows
 - **Other Technologies:** Node.js, HTML5, MJML, Socket.io, Streaming protocols, Meta Business API integration
-

EDUCATION

- **Information Technology Course** | Firjan SENAI (August 2019 – August 2020)
