PROFESSIONAL SUMMARY

Senior UI Developer with 6+ years of experience building scalable, high-performance front-end applications using **React.js**, **Next.js**, and **Node.js**. Proven expertise in developing advanced UI features, optimizing **Core Web Vitals**, and delivering robust solutions across e-commerce, marketing automation, and EdTech platforms. Strong background in **server-side rendering (SSR)**, **RESTful API integration**, and **CI/CD pipelines**. Demonstrated ability to lead technical migrations, enforce code standards through reviews, and mentor junior developers. Experienced collaborating with cross-functional teams to translate complex UX designs and business requirements into clean, responsive interfaces. Committed to accessibility (WCAG), SEO optimization, and cross-browser compatibility.

PROFESSIONAL EXPERIENCE

Senior Front-end Developer | Greenn (Bluee.ai)

May 2025 – March 2026 (11 months) | Remote, Brazil

- **Real-time Architecture & Scalability:** Implemented real-time stack using **Socket.io**, **SSE**, and streaming protocols to support 12,000 concurrent users, ensuring fluid interactions with zero latency bottlenecks.
- **Advanced UI Development:** Led development of generative AI platform for autonomous video course creation, building **React.js** components with functional hooks and state management that generated 320+ courses in 4 weeks with 8.9/10 NPS.
- **Performance Optimization:** Optimized video generation pipeline and avatar systems, achieving 47% reduction in media loading and processing time through efficient code architecture and asset management.
- **User Engagement & Retention:** Designed and developed Netflix-style learning experience (Netflix LMS) using dynamic recommendation algorithms, increasing student retention by 42% and generating R\$11,500+ revenue in first 4 weeks.
- **Code Quality & Mentorship:** Performed rigorous code reviews, established UI component best practices, and mentored team on modern React patterns and performance optimization techniques.

Senior Front-end Developer | Localweb

February 2023 – May 2025 (2 years 4 months) | Remote, Brazil

- **Complex API Integration:** Orchestrated **Meta API** Embedded Signup integration for WhatsApp Business, increasing account approval rate from 72% to 98% and automating activation of 500+ accounts/month for enterprise clients.
- **Conversion & Retention Systems:** Implemented behavior-based retention pop-ups and coupon triggers, generating 27% increase in abandoned cart recovery with 12,000 daily dispatches, directly impacting revenue for major brands (Nike, Natura, Magazine Luiza).

- **Headless Architecture & Reliability:** Maintained 99.7% uptime on critical systems through robust **Node.js** backend integration and resilient front-end architecture, ensuring full compliance with Meta policies.
- **UI Component Development:** Built responsive HTML email editor using **MJML** framework with reusable, scalable components, increasing open rates by 35% and checkout conversion by 22%.
- **Cross-functional Collaboration:** Worked closely with Product, UX, and Backend teams to drive UI/UX improvements and implement features that aligned with business objectives.

Mid-level Front-end Developer | Hivelabs

January 2022 – February 2023 (1 year 2 months) | Remote, Brazil

- **Full-stack Integration:** Developed front-end and technical integration for "Smart Campaigns" app on Tray platform, enabling WhatsApp marketing automation via **Official Meta API** for SMBs.
- **Automated Marketing Flows:** Implemented UI and automatic triggers for abandoned cart recovery, allowing merchants to configure intelligent conversion flows, resulting in increased platform ROI.
- **RESTful API Integration:** Designed user experience for simplified WhatsApp configuration, ensuring technical compliance and high delivery rates for transactional and marketing messages.
- **Performance & Adoption:** Contributed to app becoming top-ranked in Tray App Store, processing thousands of daily conversion events and reducing technological friction for small retailers.

Junior Front-end Developer | Wx3

May 2020 – January 2022 (1 year 9 months) | Nova Friburgo, RJ, Brazil

- **Strategic Migration Leadership:** Led migration of legacy e-commerce platforms (jQuery) to modern architecture based on **Next.js** and **Server-Side Rendering (SSR)** for fashion and luxury retail niche.
- **Core Web Vitals Excellence:** Achieved 82% overall performance improvement, reaching "green" status on all **Google Core Web Vitals** indicators (LCP, FID, CLS) through code optimization and best practices.
- **SEO & Scalability:** Improved organic SEO by 43% and maintained zero runtime errors for 6 months, supporting traffic spikes 4x higher than previous infrastructure.
- **Modern Tooling:** Utilized **Git**, **CI/CD pipelines**, and modern front-end build tools to streamline development workflow and ensure code quality.

TECHNICAL SKILLS

- **Core Technologies:** JavaScript (ES6+), React.js (hooks, functional components), Next.js, Node.js, HTML5, CSS3
