

JULIO LIMA COSTA VALLADARES

Senior Frontend Engineer | React, TypeScript, Next.js & Real-Time Collaborative Systems

Brazil | +55 22 99253-1720 | juliolima1225@gmail.com | linkedin.com/in/juliolimacostavalladares

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 6+ years building complex, state-heavy web applications and real-time collaborative systems. Specialized in **React**, **TypeScript**, and **Next.js** with deep experience in **performance optimization**, **multi-user editing workflows**, and **AI-native product interfaces**. Led critical migrations from legacy platforms to modern architectures achieving 82% performance improvements and green Core Web Vitals scores. Built real-time systems supporting 12,000+ concurrent users with **Socket.io** and **SSE streaming protocols**. Expert in architecting scalable frontend solutions for high-stakes domains including e-commerce, EdTech, and marketing automation. Strong product sense with proven ability to ship fast, iterate based on user feedback, and maintain high quality standards in collaborative environments.

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer | Greenn (Bluee.ai)

May 2025 – March 2026 (11 months) | Remote, Brazil

- **AI-Native Product Development:**

Led development of the first autonomous AI system for creating complete video courses in under 1 hour, generating 320+ courses in 4 weeks with 8.9/10 NPS score. Integrated AI workflows directly into user-facing interfaces with real-time feedback loops.

- **Real-Time Collaborative Architecture:** Engineered real-time multi-user system using **Socket.io**, **Server-Sent Events (SSE)**, and streaming protocols to support 12,000 concurrent users with zero latency bottlenecks. Solved complex state synchronization challenges across distributed frontend and backend systems.

- **Rich Media Editing Systems:**

Built advanced voice cloning functionality achieving 97% fidelity from 10-second audio samples using neural models. Optimized video generation pipeline with avatar systems and auto-editing, reducing media processing time by 47%.

- **Interactive UI/UX Design:**

Designed and implemented Netflix-style learning experience with dynamic recommendation algorithms, increasing student retention by 42% and generating R\$11,500+ revenue in first 4 weeks. Created shared editing, commenting, and annotation workflows for collaborative content creation.

Senior Frontend Engineer | Localweb (Tray/Bagy E-commerce Platform)

February 2023 – May 2025 (2 years 4 months) | Remote, Brazil

- **Complex Integration Systems:** Orchestrated **Meta Embedded Signup API** integration for WhatsApp Business, increasing account approval from 72% to 98% and automating 500+

monthly activations for enterprise clients including Nike, Natura, Magazine Luiza, and Telhanorte.

- **State Management & User Behavior Systems:**

Implemented behavior-driven retention pop-ups and coupon trigger systems processing 12,000 daily events, achieving 27% improvement in abandoned cart recovery. Built robust state management architecture ensuring 99.7% uptime for mission-critical systems.

- **Rich Editing Interfaces:** Developed HTML email template editor based on **MJML framework** with drag-and-drop functionality, increasing open rates by 35% and checkout conversion by 22% through responsive, optimized design systems.

- **Headless Architecture:**

Maintained full compliance with Meta policies while architecting resilient, headless frontend systems for high-volume transactional and marketing messaging platforms.

Mid-Level Frontend Engineer | Hivelabs

January 2022 – February 2023 (1 year 2 months) | Remote, Brazil

- **Marketing Automation Platform:**

Developed frontend and technical integration for "Smart Campaigns" WhatsApp automation app on Tray platform, democratizing Meta Official API access for SMBs. Became one of highest-adoption apps in Tray App Store.

- **Conversion Flow Design:**

Built user-facing interfaces for automated cart abandonment recovery with intelligent triggers and simplified WhatsApp configuration, reducing technical friction for small retailers while processing thousands of daily conversion events.

- **Multi-User Workflows:**

Designed merchant-facing UI enabling multi-step campaign setup, template management, and real-time message delivery tracking with high compliance and delivery rates.

Frontend Engineer | Wx3

May 2020 – January 2022 (1 year 9 months) | Nova Friburgo, Brazil

- **Legacy Platform Migration:** Led migration of fashion and luxury e-commerce platforms from **jQuery** to modern **Next.js** architecture with **Server-Side Rendering (SSR)**, achieving 82% performance improvement and green status across all **Core Web Vitals** metrics (LCP, FID, CLS).

- **Performance Optimization:**

Improved organic SEO by 43% through technical optimization and SSR implementation. Maintained zero runtime errors for 6 consecutive months while supporting traffic peaks 4x higher than legacy infrastructure capacity.

- **Scalable Architecture:**

Built component libraries and design systems supporting multiple storefronts with shared codebase, enabling rapid feature deployment and consistent user experiences across brands.

TECHNICAL SKILLS

- **Frontend Core:** React.js, TypeScript, Next.js, Vue.js, JavaScript (ES6+), HTML5, CSS3

- **Real-Time & Collaboration:** Socket.io, Server-Sent Events (SSE), WebSockets, streaming protocols, state synchronization
 - **Styling & UI:** TailwindCSS, CSS Modules, styled-components, responsive design, component libraries
 - **State Management:** Redux, Context API, Zustand, complex state architecture
 - **APIs & Integration:** RESTful APIs, GraphQL, third-party API integration (Meta/WhatsApp, Google Cloud AI)
 - **Performance & SEO:** Core Web Vitals optimization, SSR/SSG, lazy loading, code splitting, technical SEO
 - **AI Integration:** AI workflow integration, Cursor AI, Gemini CLI, Google Cloud AI, LLM product interfaces
 - **Tools & Workflow:** Git, CI/CD, Vercel, code review, agile methodologies, collaborative development
 - **Backend Familiarity:** Node.js, API design, headless architecture, microservices integration
-

EDUCATION

- **Information Technology Course** | Firjan SENAI (August 2019 – August 2020)
