

JULIO LIMA COSTA VALLADARES

Senior Frontend Developer | Angular, TypeScript, React.js & High-Performance Web Applications

Brazil | +55 22 99253-1720 | juliolima1225@gmail.com | linkedin.com/in/juliolimacostavalladares

PROFESSIONAL SUMMARY

Senior Frontend Developer with 6+ years of experience delivering high-performance, scalable web applications across e-commerce, marketing automation, and EdTech platforms. Expert in modern JavaScript frameworks including **Angular 2+**, **React.js**, **Next.js**, and **Vue.js**, with deep knowledge of **TypeScript**, **HTML5**, **CSS3**, and **CSS preprocessors (Sass, Less)**. Proven track record of implementing responsive UI/UX designs, consuming **RESTful WebAPIs**, and optimizing application performance to achieve excellence in Core Web Vitals. Successfully led complex platform migrations from legacy systems to modern architectures, resulting in 82% performance improvements and 43% increases in organic traffic. Experience architecting real-time systems supporting 12,000+ concurrent users and developing reusable, testable components within team environments. Fluent in English with strong technical communication skills.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | Greenn (Bluee.ai)

May 2025 – March 2026 (11 months) | Remote, Brazil

- **Real-Time Architecture & Scalability:** Implemented real-time data handling using Socket.io, SSE, and streaming protocols to support 12,000 concurrent users, ensuring fluid interactions and eliminating latency bottlenecks in a high-performance web application environment.
- **Component-Based Development:** Designed and developed self-contained, reusable, and testable modules and components for an AI-powered video course generation platform, achieving a 47% reduction in media loading and processing time through optimized component architecture.
- **Responsive UI Implementation:** Created a Netflix-style learning experience interface with dynamic recommendation algorithms, implementing custom responsive UI that elevated student retention by 42% and generated R\$11,500+ revenue in the first 4 weeks.
- **Frontend Performance Optimization:** Architected video generation pipeline with avatar systems and auto-editing features, optimizing frontend data binding and rendering to deliver seamless user experiences across mobile and desktop platforms.
- **High-Quality Code Standards:** Wrote tested, idiomatic, and documented JavaScript/TypeScript code following best practices, ensuring maintainability and scalability of the complete frontend application within an agile team environment.

Senior Frontend Developer | Localweb

February 2023 – May 2025 (2 years 4 months) | Remote, Brazil

- **WebAPI Integration & Automation:** Orchestrated Meta Embedded Signup integration for WhatsApp Business, consuming RESTful WebAPIs to automate account activation for 500+ new accounts monthly, increasing approval rates from 72% to 98% for Enterprise clients.

- **Headless Architecture & High Availability:** Ensured 99.7% uptime in critical systems through robust frontend architecture and efficient WebAPI consumption, maintaining compliance with Meta policies for major brands including Nike, Natura, Magazine Luiza, and Telhanorte.
- **Conversion-Focused UI Development:** Implemented behavior-based retention pop-ups and coupon trigger systems with custom responsive UI, generating a 27% increase in abandoned cart recovery with 12,000 daily dispatches through optimized frontend performance.
- **HTML Email Template Development:** Developed an MJML-based email template editor using HTML5 and CSS3, creating responsive designs that increased open rates by 35% and checkout conversion by 22% through cross-device compatibility.
- **Mobile & Desktop Performance:** Delivered high-performance frontend applications optimized for both mobile and desktop platforms, ensuring seamless real-time data handling and responsive user experiences across all devices.

Mid-Level Frontend Developer | Hivelabs

January 2022 – February 2023 (1 year 2 months) | Remote, Brazil

- **Complete Frontend Application Delivery:** Led frontend development and technical integration of the "Smart Campaigns" marketing automation app for Tray platform, delivering a complete frontend application within a collaborative team environment using modern JavaScript frameworks.
- **RESTful API Consumption:** Implemented WhatsApp Business API integration consuming WebAPIs to enable automated cart recovery flows, ensuring high message delivery rates and technical compliance for transactional and marketing communications.
- **User-Centric Interface Design:** Designed and implemented custom responsive UI for simplified WhatsApp configuration, reducing technological friction for small retailers and contributing to the app becoming one of the highest-adoption tools in Tray's App Store.
- **Conversion Flow Development:** Created user interfaces for intelligent conversion triggers allowing merchants to configure automated marketing flows in clicks, directly increasing ROI through frontend-driven automation features.
- **Cross-Browser Compatibility:** Ensured consistent user experience across browsers and devices through tested HTML5, CSS3, and JavaScript implementation, processing thousands of daily conversion events with high reliability.

Junior Frontend Developer | Wx3

May 2020 – January 2022 (1 year 9 months) | Nova Friburgo, RJ, Brazil

- **Strategic Platform Migration:** Led migration of legacy e-commerce platforms from jQuery to modern Next.js architecture with Server-Side Rendering, delivering complete frontend applications for fashion and luxury retail clients using React-based framework.
- **Core Web Vitals Excellence:** Achieved 82% overall performance improvement and "green" status across all Google metrics (LCP, FID, CLS) through optimized HTML5, CSS3, and JavaScript implementation, ensuring high performance on both mobile and desktop platforms.
- **Scalable Frontend Architecture:** Built scalable frontend systems supporting 4x traffic increases with zero runtime errors over 6 months, implementing tested and documented code following modern development standards.
- **SEO-Optimized Development:** Improved organic SEO by 43% through proper HTML semantics, structured data implementation, and optimized frontend rendering techniques in Next.js SSR environment.

- **Responsive Design Implementation:** Created custom responsive UI components using CSS preprocessors and modern layout techniques, ensuring consistent user experiences across all device types and screen sizes.
-

TECHNICAL SKILLS

- **Frontend Frameworks & Libraries:** Angular 2+, React.js, Next.js, Vue.js, TypeScript, JavaScript (ES6+)
 - **Core Technologies:** HTML5, CSS3, Sass, Less, TailwindCSS
 - **API Integration:** RESTful WebAPIs, Socket.io, SSE (Server-Sent Events), Real-time data handling
 - **Testing & Quality:** Component testing, Modular development, Code documentation
 - **Performance Optimization:** Core Web Vitals, SSR (Server-Side Rendering), Frontend optimization
 - **Development Tools:** Git, npm, webpack, modern build tools
 - **UI/UX Implementation:** Responsive design, Custom component development, Data-binding frameworks
 - **Languages:** English (fluent - verbal and written), Portuguese (native)
-

EDUCATION

- **Information Technology Course** | Firjan SENAI (August 2019 – August 2020)
- **Information Technology Course** | Firjan SENAI (2019)
