

JULIO LIMA COSTA VALLADARES

Senior Front-end Developer | Angular, React.js, JavaScript & API Integration Specialist

Brazil | +55 22 99253-1720 | juliolima1225@gmail.com | linkedin.com/in/juliolimacostavalladares

PROFESSIONAL SUMMARY

Senior Front-end Developer with 6+ years of experience building high-performance web applications and scalable e-commerce platforms. Proven expertise in **Angular**, **React.js**, **JavaScript (ES5/ES6+)**, and **RESTful API integration**, with a strong focus on delivering maintainable, user-centric solutions. Specialized in migrating legacy systems to modern architectures, implementing **Material Design** interfaces, and optimizing application performance through **unit testing** and technical documentation. Track record of leading complex integrations with **REST APIs**, building real-time systems, and leveraging AI tools to enhance development workflows. Experience spans e-commerce automation, EdTech platforms, and enterprise-grade applications serving major brands. Passionate about creating scalable front-end architectures that drive business results and user engagement.

PROFESSIONAL EXPERIENCE

Senior Front-end Developer | Greenn

May 2025 – March 2026 (11 months) | Rondon, PR

- **Real-time Architecture with REST API Integration:** Implemented real-time streaming architecture using **Socket.io** and **SSE protocols**, integrating backend services through **REST APIs** to support 12,000 concurrent users with seamless interactions and zero latency bottlenecks.
- **AI-Powered EdTech Platform Development:** Led front-end development of the world's first AI platform for autonomous video course creation, generating 320+ courses in 4 weeks with 8.9/10 NPS. Built using **JavaScript ES6+**, **HTML5**, and **CSS3** with modern component architecture.
- **Video Optimization and Performance:** Optimized video generation pipeline and auto-editing systems, achieving 47% reduction in media loading and processing time through efficient **AJAX** calls and API-first architecture.
- **Netflix-Style Learning Experience:** Designed and developed a Netflix-inspired LMS interface with dynamic recommendation algorithms, increasing student retention by 42% and generating R\$11,500+ revenue in first 4 weeks using **JavaScript**, **HTML5**, and **CSS3**.
- **High-Fidelity Voice Cloning Integration:** Developed front-end interface for voice cloning functionality with 97% fidelity, integrating neural model APIs to replicate voice nuances from 10-second audio samples.

Senior Front-end Developer | Locaweb

February 2023 – May 2025 (2 years 4 months)

- **Meta API Integration and Automation:** Orchestrated **RESTful API integration** with Meta's Embedded Signup for WhatsApp Business, increasing account approval from 72% to 98% and automating activation of 500+ new accounts monthly for Enterprise clients.

- **Retention and Conversion Systems:** Implemented behavior-based retention pop-ups and coupon triggers using **JavaScript** and **AJAX**, generating 27% increase in abandoned cart recovery with 12,000 daily dispatches through **REST API** integrations.
- **MJML-Based Email Editor Development:** Built HTML email template editor using **MJML framework**, **JavaScript**, and **CSS3**, increasing open rates by 35% and checkout conversion by 22% through responsive design optimization.
- **Headless Architecture and High Availability:** Maintained 99.7% uptime for critical systems serving Nike, Natura, Magazine Luiza, Telhanorte, and DPaschoal, ensuring full compliance with Meta policies through robust **API** integration and error handling.
- **Technical Documentation and Unit Testing:** Created comprehensive front-end documentation and implemented **unit testing** strategies to ensure code quality and maintainability across all integrations.

Mid-Level Front-end Developer | Hivelabs

January 2022 – February 2023 (1 year 2 months) | Remote

- **Tray Platform App Development:** Led front-end development and technical integration of "Smart Campaigns" marketing automation app for Tray platform, democratizing Meta's Official API for SMBs through intuitive **JavaScript** interfaces.
- **REST API Integration for E-commerce:** Implemented **RESTful API** integrations for abandoned cart recovery automation, enabling merchants to configure intelligent conversion flows through user-friendly interfaces built with **HTML5**, **CSS3**, and **JavaScript ES6+**.
- **WhatsApp Messaging Integration:** Designed user experience for simplified WhatsApp configuration using **AJAX** and **REST APIs**, ensuring technical compliance and high delivery rates for transactional and marketing messages.
- **XML Data Manipulation:** Implemented **XML** data parsing and manipulation features for seamless integration with e-commerce platforms and third-party services.
- **High-Adoption App Store Solution:** Contributed to making the tool one of Tray's most adopted apps, processing thousands of daily conversion events and reducing technological friction for small retailers through clean, documented code.

Junior Front-end Developer | Wx3

May 2020 – January 2022 (1 year 9 months) | New Fribourg, RJ

- **Legacy to Modern Migration (jQuery to React/Next.js):** Led migration of legacy e-commerce platforms from **jQuery** to modern **React.js/Next.js** architecture with Server-Side Rendering for fashion and luxury retail sector.
- **Performance Optimization and Core Web Vitals:** Achieved 82% performance improvement and "green" status across all Google Core Web Vitals metrics (LCP, FID, CLS) through optimized **JavaScript**, **HTML5**, and **CSS3** implementation.
- **SEO and Scalability Enhancement:** Improved organic SEO by 43% and maintained zero runtime errors for 6 months, supporting traffic peaks 4x higher than previous infrastructure using efficient **REST API** calls and **AJAX** patterns.
- **Bootstrap Implementation:** Built responsive interfaces using **Bootstrap 3+**, ensuring cross-browser compatibility and mobile-first design principles for luxury e-commerce clients.
- **Unit Testing and Quality Assurance:** Implemented **unit testing** protocols and maintained technical documentation for front-end codebase, ensuring long-term maintainability and code quality.

TECHNICAL SKILLS

- **Frontend Frameworks:** React.js, Next.js, Vue.js, AngularJS (1.5+), jQuery
 - **JavaScript:** ES5, ES6+, AJAX, modern JavaScript patterns and best practices
 - **Markup & Styling:** HTML5, CSS3, Bootstrap 3+, TailwindCSS, Material Design, MJML, responsive design
 - **API Integration:** REST APIs, API-first architecture, Socket.io, SSE (Server-Sent Events), streaming protocols
 - **Data Formats:** JSON, XML manipulation and parsing
 - **Testing & Documentation:** Unit testing frameworks, technical documentation, code reviews
 - **Development Tools:** Git version control, Cursor AI, Gemini CLI, Google Cloud AI
 - **Performance Optimization:** Core Web Vitals optimization, SSR (Server-Side Rendering), SEO best practices
 - **AI Integration:** Generative AI tools, workflow automation, AI-assisted development
-

EDUCATION

- **Information Technology Course** | Firjan SENAI (August 2019 – August 2020)
- **Information Technology Course** | Firjan SENAI (2019)
