

JULIO LIMA COSTA VALLADARES

Senior Frontend Developer | Vue.js, React.js & Next.js Specialist

Brazil | +55 22 99253-1720 | juliolima1225@gmail.com | linkedin.com/in/juliolimacostavalladares

PROFESSIONAL SUMMARY

Senior Frontend Developer with 6+ years of extensive expertise in **JavaScript ES6+**, **Vue.js**, and **React.js**, building scalable, high-performance applications for e-commerce, marketing automation, and EdTech platforms. Proven track record of leading complex migrations from legacy systems to modern architectures using **Next.js**, **SSR**, and headless solutions, achieving significant performance improvements and Core Web Vitals excellence. Deep experience integrating RESTful APIs, implementing real-time features with Socket.io and SSE, and optimizing applications for speed, scalability, and cross-browser compatibility. Strong proficiency in **CSS/SCSS**, responsive design techniques, and modern frontend build tools including **Webpack** and **Git**. Skilled at mentoring teams, participating in code reviews, and collaborating with UI/UX designers and backend engineers to deliver cohesive product experiences. Specialized in creating reusable component libraries and front-end architectures that support rapid scaling and maintainability.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | Greenn

May 2025 – March 2026 (11 months) | Remote, Brazil

- **AI-Powered Platform Development:** Led frontend development for a generative AI platform creating autonomous video courses in under 1 hour, generating 320+ courses in 4 weeks with 8.9/10 NPS using **Vue.js** and **React.js** component architectures.
- **Real-Time Architecture & Scalability:** Implemented real-time frontend infrastructure using **Socket.io**, **SSE**, and streaming protocols to support 12,000 concurrent users with optimized state management and minimal latency.
- **Video Optimization & UI Performance:** Engineered video generation pipeline with avatar systems and auto-editing features using modern **JavaScript ES6+**, reducing media loading and processing time by 47% through code splitting and lazy loading techniques.
- **Netflix-Style Learning Experience:** Designed and built a Netflix-inspired LMS interface with dynamic recommendation algorithms, increasing student retention by 42% and generating R\$11,500+ revenue in first 4 weeks through superior **responsive design** and UX patterns.
- **Component Library Development:** Created reusable **Vue.js** and **React** component libraries for video players, interactive forms, and dashboard widgets, enabling rapid feature deployment across multiple product lines.

Senior Frontend Developer | Locaweb

February 2023 – May 2025 (2 years 4 months) | Brazil

- **Meta API Integration:** Orchestrated frontend implementation of Meta's Embedded Signup for WhatsApp Business, increasing account approval from 72% to 98% and automating activation of 500+ monthly accounts for enterprise clients using **React.js** and **RESTful API** integration.

- **Conversion Optimization Systems:** Built behavior-based retention pop-ups and coupon trigger systems using **Vue.js**, generating 27% increase in abandoned cart recovery with 12,000 daily dispatches through optimized event handling and state management.
- **Headless E-commerce Architecture:** Maintained 99.7% uptime for critical systems serving brands like Nike, Natura, and Magazine Luiza by implementing resilient frontend architectures with **Webpack**, error boundaries, and comprehensive **Git** workflows.
- **MJML Email Editor Development:** Developed responsive HTML email template editor using **MJML framework** with **React.js**, increasing open rates by 35% and checkout conversion by 22% through cross-browser compatible responsive design.
- **Cross-Browser Compatibility:** Ensured seamless user experiences across all major browsers and devices using modern **CSS/SCSS** techniques, flexbox, grid layouts, and progressive enhancement strategies.

Mid-Level Frontend Developer | Hivelabs

January 2022 – February 2023 (1 year 2 months) | Remote

- **Vue.js Application Development:** Led frontend development and technical integration of "Smart Campaigns" app for Tray platform, democratizing Meta's WhatsApp API for SMBs using **Vue.js**, **JavaScript ES6+**, and component-based architecture.
- **Automated Cart Recovery Interface:** Implemented UI and automatic triggers for abandoned cart recovery system, enabling merchants to configure intelligent conversion flows through intuitive **Vue.js** interfaces with real-time preview capabilities.
- **API Integration & Messaging:** Designed user experience for simplified WhatsApp integration configuration using **RESTful APIs**, ensuring technical compliance and high delivery rates for transactional and marketing messages.
- **Build Tool Optimization:** Utilized **Webpack** for code splitting, tree shaking, and bundle optimization, significantly improving application load times and overall performance metrics.
- **Version Control & Collaboration:** Maintained robust **Git** workflows with feature branching, pull requests, and code reviews, ensuring high code quality and seamless team collaboration.

Junior Frontend Developer | Wx3

May 2020 – January 2022 (1 year 9 months) | New Fribourg, RJ, Brazil

- **Legacy Migration to Modern Stack:** Led migration of e-commerce platforms from jQuery to **Next.js** with **SSR** and **React.js** for fashion and luxury brands, implementing modern **JavaScript ES6+** patterns and component-based architecture.
- **Performance & Core Web Vitals Excellence:** Achieved 82% performance improvement and "green" status across all Google Core Web Vitals (LCP, FID, CLS) through code optimization, lazy loading, and efficient **CSS/SCSS** implementation.
- **SEO & Scalability Enhancement:** Improved organic SEO by 43% and sustained zero runtime errors for 6 months while supporting 4x traffic spikes through optimized **React** components, efficient rendering strategies, and responsive design techniques.
- **Responsive Web Interface Development:** Translated wireframes and visual designs into elegant, responsive web interfaces using **HTML5**, **CSS3/SCSS**, flexbox, and grid systems, ensuring pixel-perfect implementation across devices.
- **Component Reusability:** Built reusable **React** component libraries and frontend modules for product catalogs, shopping carts, and checkout flows, enabling rapid deployment across multiple e-commerce sites.

TECHNICAL SKILLS

- **Core Languages:** JavaScript (ES6+), HTML5, CSS3/SCSS, TypeScript
 - **Frameworks & Libraries:** Vue.js (extensive expertise), React.js (production experience), Next.js, TailwindCSS
 - **State Management:** Vuex, Redux, Context API, Pinia
 - **API Integration:** RESTful APIs, GraphQL, WebSocket, Socket.io, SSE (Server-Sent Events)
 - **Build Tools & Bundlers:** Webpack, Vite, Rollup, Babel, NPM/Yarn
 - **Version Control:** Git, GitHub, GitLab, branching strategies, pull requests, code reviews
 - **Responsive Design:** Mobile-first development, flexbox, CSS Grid, media queries, cross-browser compatibility
 - **Performance Optimization:** Code splitting, lazy loading, tree shaking, Core Web Vitals optimization, SSR
 - **Testing & Quality:** Jest, Vitest, Cypress, ESLint, Prettier, accessibility compliance (WCAG)
 - **Additional Tools:** MJML, MJML framework, streaming protocols, real-time communication patterns
-

EDUCATION

- **Information Technology Course** | Firjan SENAI (August 2019 – August 2020)
- **Information Technology Course** | Firjan SENAI (2019)
